

Directions from Granville

From Granville town centre you need to follow the signs to Avranches, taking the D973 main road.

The D973 is an unbelievably straight road so just keep going straight ahead and you will eventually come to a village called Sartilly. Keep going on through the village.

Just after Sartilly start looking out for signs to Montviron on the right. Do not take the first turning that is signposted, but carry straight on. As you climb the hill you will approach a crossroads, and here take a right turn to Monviron.

Keep straight on this road, you will pass a little bar on your left and cross over a railway track. Keep going straight on.

You need to take the third main turning on the right after the railway – the D231 – but it is very easy to miss! Look out for a large old garage/warehouse on the left – your D231 turning is just before this on the right. If you reach the Grippon crossroads you have gone too far.

About 1km along the D231 you will see a sign for the farm 'La Baudonniere' on the left – after this take the next turning left into the drive of Chateau de la Baudonniere.

If you have any problems telephone the Chateau on 02 33 60 46 95 and ask for Annabel.
